

## 18.0 STANDARD DETAIL DRAWINGS

| Drawing Number   | Title  |
|------------------|--|
| <b>Section 3</b> |  |
| 3.1              | Typical Lot Grading  |
| 3.2              | Building Grade Certificate                                       |
| <b>Section 4</b> |  |
| 4.1              | Typical Hydrant and Valve Detail                                 |
| 4.2              | Main Valve Casing Detail   |
| 4.3              | Valve Box Detail – Sliding Type A and Screw Type B               |
| 4.4              | Valve Box Construction Detail                                    |
| 4.5              | Thrust Block Details   |
| 4.6              | Vertical Bend Thrust Block Detail                                |
| 4.7              | Anode Installation Cadweld                                       |
| 4.8              | Anode on 50 mm and Smaller Copper Water Service                  |
| 4.9              | Typical Anode Installation at Valves, Iron Fitting, and Hydrants |
| <b>Section 5</b> |  |
| 5.1              | Air Relief Valve and Flushing Chamber                            |
| 5.2              | Pipe Bedding Details   |
| 5.3              | Typical Trench Detail  |
| <b>Section 5</b> |  |
| 6.1              | Manhole Safety Platform  |
| 6.2              | Manhole Detail Type 5A Pre-Cast                                  |
| 6.3              | Interior Drop Manhole Detail                                     |
| 6.4              | Exterior Drop Manhole Detail                                     |
| 6.5              | Typical Perched Manhole for 600 to 1050 mm Diameter Pipes        |
| 6.6              | T-Riser Manhole for Pipes 1200 mm and Larger                     |
| 6.7              | PreBenchd Manhole Base   |
| 6.8              | Grinder Pump Station Installation                                |
| 6.9              | Grinder Pump Service Connection Detail                           |
| <b>Section 7</b> |  |
| 7.1              | Concrete Drainage Swale  |
| 7.2              | Catch Basin Manhole  |
| 7.3              | Catch Basin Typical 900 mm                                       |
| 7.4              | Storm Catch Basin Assembly c/w 300 mm Sump                       |
| 7.5              | Trash Grate Inlet  |
| 7.6              | Typical Dry Pond Detail  |
| 7.7              | Access Installation  |

| Drawing Number   | Title   |
|------------------|---|
| <b>Section 8</b> |   |
| 8.1              | Typical 50 mm and smaller Residential Water and 150 mm Sanitary Sewer |
| 8.2              | Water Service Connection – Manufactured Home                          |
| 8.3              | Sanitary Service Connection – Manufactured Home                       |
| 8.4              | Single and Double Service Layout                                      |
| 8.5              | Typical Sanitary Service Connection                                   |
| 8.6              | Residential Sanitary Sewer Service Riser Connection                   |
| 8.7              | Typical Standard Riser Detail   |
| 8.8              | Inspection Chamber Detail   |
| 8.9              | Blow-Off Valve  |
| <b>Section 9</b> |   |
| 9.2              | Municipal Cul-De-Sac Curb and Gutter;                                 |
| 9.3              | Industrial/Commercial Curb and Gutter Crossing;                       |
| 9.4              | Typical Monolithic Lane and Driveway Crossing;                        |
| 9.5              | Wheelchair/Bike Ramp Locations;                                       |
| 9.6              | Layout of Crosswalks and Ramps at Urban Intersections                 |
| 9.7              | Sidewalk Ramp for Wheelchair or Bicycle on Corner (Type 1)            |
| 9.8              | Sidewalk Ramp for Wheelchair or Bicycle on Corner (Type 2)            |
| 9.9              | 500 mm Curb and Gutter for Arterial Roadways;                         |
| 9.10             | 250 mm Standard Curb and Gutter;                                      |
| 9.11             | 250 mm Rolled Curb and Gutter;  |
| 9.12             | 1.50 m Standard Monolithic Sidewalk;                                  |
| 9.13             | 1.50 m Rolled Monolithic Sidewalk;                                    |
| 9.14             | 1.20 m or 1.50 m Separate Sidewalk;                                   |
| 9.15             | Typical Catch Basin Installation – 150 Curb and 250 Gutter.           |

| <b>Drawing Number</b> | <b>Title</b>  |
|-----------------------|---|
| <b>Section 10</b>     |   |
| 10.1                  | Typical Road Intersections  |
| 10.2                  | Pavement Crown for Various Road Widths                              |
| 10.3                  | Local Residential (Urban)   |
| 10.4                  | Divided Arterial  |
| 10.5                  | Undivided Arterial (Urban)  |
| 10.6                  | Minor Residential Collector (Urban)                                 |
| 10.7                  | Major Residential Collector (Urban)                                 |
| 10.8                  | Local Industrial (Urban)  |
| 10.9                  | Rural Residential Road Standard Cross-Section                       |
| 10.10                 | Rural Residential Subdivision with Utilities Standard Cross-Section |
| 10.11                 | Typical Trail Cross-Sections  |
| 10.12                 | Asphalt Speed Bump  |
| 10.13                 | Paved Road Standard Cross-Section                                   |
| 10.14                 | Chip Seal Road Standard Cross-Section                               |
| 10.15                 | Gravel Road Standard Cross-Section                                  |
| 10.16                 | Limited Access Road Standard Cross-Section                          |
| 10.17                 | Rural Road Standard Cross Section                                   |
| 10.18                 | Industrial Road Standard Cross Section                              |
| 10.19                 | Major Collector Standard Cross Section                              |
| 10.20                 | Major Collector Paved Road Standard Cross section                   |
| 10.21                 | Collector Standard Cross Section                                    |
| 10.22                 | Minor Collector Standard Cross Section                              |
| 10.23                 | Farm Machinery Road Standard Cross Section                          |
| 10.24                 | Minimum Approach Standards  |
| 10.25                 | Approach Treatment for Minor Intersecting Roadway                   |
| 10.26                 | Culvert Installation  |
