 - e) indicate if the development will be situated within 1.6 km of a landfill for the disposal of garbage or refuse, intensive livestock operation or a sewage treatment/sewage lagoon.

 - a) floor plans, elevations and sections of any proposed buildings;
 - b) grading and landscaping plans;
 - c) location of existing and proposed municipal and/or private sanitary sewer and water services;
 - d) the identification of all right-of-ways and easements within or abutting the subject property;

 - h) a Real Property Report relating to the site that is the subject of the development permit application.
4. Review of a development proposal may be delayed if the form and/or additional information provided is incomplete. Should this happen we will need to contact you.
5. A permit is valid for 12 months from the date it is issued. If the development has not commenced within twelve (12) months from the date of its issuance and completed within twenty-four (24) months from the date of commencement, the permit is deemed to be void, unless an extension to this period is granted by the Development Authority.
6. A permit comes into effect the 15th day after the date of issuance on the notice of decision. If a Development Officer:
 - a) refuses or fails to issue a Development Permit, or
 - b) issues a Development Permit subject to conditions, or
 - c) fails to make a decision within 40 days of accepting a completed application; then,

The person applying for the permit or a person affected by a decision or Development Permit issued by a Development Officer, may appeal to the Subdivision and Development Appeal Board (SDAB) within 14 days of the notice of issuance of a permit. The SDAB may confirm, revoke or vary any decision of the Development Officer, and Development Permit or any condition, or may make or substitute any decision or permit of its own.
