

FOR IMMEDIATE RELEASE – Summer Camps Benefit from Enbridge’s *Fueling Futures* Grant

June 5, 2025 – LAMONT, AB: Each year Lamont County’s Community Services: Family and Community Support Services (FCSS), Kalyna Family Resource Network - Lamont County Region (KFRN), gears up for a summer of fun and excitement; organizing and facilitating summer programming across the County during July and August.

In part, these events provide opportunities for youth in Lamont County to have unique summer experiences and to stay active, healthy and engaged. It takes a lot of resources and commitment for these events, which includes day camps, overnight programs and specialized learning opportunities.

Lamont County is extremely thankful to receive support from Enbridge Inc.’s *Fueling Futures* program, a donation of \$3,500 that directly helps community programming for youth summer activities (for children ages 4-17).

“One of the main summer activities for children in Lamont County is the Summer Camp programs,” said Sara Rindero, Lamont County’s Community Services Manager. “The *Fueling Futures* program helps ensure we continue to provide opportunities for families and children to participate in rewarding and fun events each summer. Enbridge is a great partner to help strengthen our community.”

Enbridge operates and maintains pipelines across Lamont County and Alberta’s Industrial Heartland, and supports local programs in the community through its grants. It is focused on energizing communities through initiatives that strengthen community safety, vibrancy and sustainability.

“Enbridge steps up continually to support local priorities that make positive and lasting impacts in our communities,” said Dayna Jacobs, Lead Youth Facilitator FCSS Lamont County Region. “We are proud the organization supports our youth and sees the value of our community activities.”

Lamont County thanks Enbridge Inc. for its generous donations towards the summer programming.

“As a good neighbour, we focus on enhancing vibrant communities,” said Enbridge’s Sr. Community and Indigenous Relations Advisor, Dana Gray. “It is important for us to support, strengthen and be a part of the communities where we live and work.”
